ASSOCIATED PRESS TELEGRAMS

HAVAS AGENCY

London, 16th.

It is known on the very best authority, that large Russian reinforcements have arrived at Merv. This news, in conjunction with that published yesterday in the *Times* of the advance of the Russians, has caused a very bad impression in the market, and there is a heavy fall in every stock quoted on Exchange.

Paris, 16th.

A telegram received to-day from Hannoi, states that the Queen and princes have returned to the capital. General Courcey has named a provisional king or Regent, to act in place of His Majesty, who has cleared out and who is declared now by law to have abdicated his throne and his rights.

St. Petersburg, 16th.

Diplomatic relations with England are now so strained, that a rupture is momentarily expected.

THE CORRIENTES REVOLUTION

The scenes are shifting in the Correntino drama; more gunboats, more soldiers and more guns have been despatched from the Boca. General Ayala ought to reach Goya to-day, when it is supposed he will meet the overturned Governor Dr Derqui, who has received positive orders from President Roca to return to Corrientes with Gen. Ayala and resume his post as Governor. Telegrams came down yesterday from the "locum tenens" Governor, stating that there was no desire on the part of Colonel Toledo to rebel against the Nat. Government, but that the Province would have no more of Derqui. Thus the affair is at last taking shape. President Roca insists very properly on Derqui being reinstated, whilst Toledo and the Correntinos insist on his overthrow. General Ayala with his legions will have to fight for it, unless some compromise is come to, which we should say is not improbable.

The Nat. Government has chartered the steamer Mensajero, and despatched her at cock-crow yesterday morning with the rest of the artillery regiment, under command of Mayor Sarmiento, and with 6 metrailleuses Nordenfelt guns, most terribly effective weapons in a street or town. Sergeant Cabot, with a squadron of cavalry, 6th line, has also gone up, and yesterday afternoon two more steamers were sent up: the gunboats Republica and Resguardo.

Thus, to judge by the measures taken by our War Office, President Roca is terribly in earnest and firmly resolved to stand no nonsence from Colonel Toledo or any other caudillo, and all will side with the President, and approve of the great energy he has shown in the matter. It would never do to allow Colonel Toledo to dictate to the National Government, and unless he at once submits, the probabilities are Ayala will take him prisoner, and have him tried by court martial and shot in the public plaza.

To instruct our readers to the fullest extent in this Correntino affair, we translate Colonel Toledo's proclamation which arrived in town yesterday. Such documents are no doubt out o date, in this progressive era of this country, yet as a revolutionary curiosity they may not altogether be devoid of interest. The following is the Colonel's proclamation:

"The political movement which has been felt through the province makes it a duty for me to explain my conduct to my countrymen.

"In acquitting myself of the duties of my post, I have always displayed the greatest loyalty towards the Government that had raised me to that post. I had no other ambition than that of discharging my duties and carrying out the instructions I received with zeal, although in many cases I was acting against my own convictions and sentiments. My hands are full of documents that will confirm beyond a doubt this statement, and I shall not lose an opportunity of publishing them, to preclude all possibility of doubt to the truth of my words.

"In almost all of my acts, I have merely been the instrument of my superiors to carry out their orders, and the zeal I may have displayed cannot be attributed to any other motive than an endeavour to establish a closer party-union. Nevertheless, a certain clique comprising a few men, whose antecedents are unknown, sprang into existence for the purpose of divesting me of the post which had been entrusted to me. This low opposition must be attributed to my being an obstacle to their ambitious projects. Although this clique was composed of the Vice-Governor, ministers, and Government employees, I braved them all, for I based my conduct on my rights and, above all, on the loyalty of a man who could not fan the spark of insubordination into a flame, without an unimpeachable reason.

"I believed that Dr. Manuel Derqui who, as Governor, owed his position to us, his partisans, and would not fail to point me out as his loyal friend and supporter, could take care to disown this oposition. I placed all my confidence in this belief. I could not harbor any distrust, for I was sincere. This circumstance only served to embitter my deception, when I discovered that Dr. Derqui figured in the ranks of the low clique. I could scarcely believe it, and still entertained certain doubts which vanished when I learned the events that had taken place on June, 1st and had endangered the lives of persons most dear to me. At that time I was in the Capital, and the news only comfirmed my conjectures as to the principal author in this shameless conspiracy against my political position, perhaps against my life, since they endeavored to take that of my brother Col. Vincente Toledo.

"Unabashed at the failure of their abortive and ridiculous attempt to take my brother's life, they continued their unjust opposition against the 'Toledos.' I then gathered all the circumstances which I have mentioned, and examined them coolly but severely. On one side I perceived Dr. Derqui charmingly surrounded by a dozen or more of his relations, the hopeful candidates for the Governorship of the Province and the vacancies in the Chambers; on the other side I saw myself in the midst of the majority of the Autonomist party, ready to stand by me and share my fate, whatever it might be. But the majority have the right to govern; the majority acted with me.

"It was, therefore, my duty to enforce the rights of this majority. I did so. I removed all obstacles, and in doing this, I was merely having recourse to legitimate defense, for I discovered a new plot against us, the details of which will shortly be made public.

"Dr. Derqui and his clique had thus paralysed the action of their Government; they were incapable of doing any good for the public, which is the object of a Government.

"In this state of affairs, I called on the inhabitants to direct, with the concurrence of my political friends, the destinies of their Province. My sole ambition is to contribute to the welfare of the Province that gave me birth, and to maintain that respect which we all owe to the President of the Republic and his Government.

"In conclusion I beg to be allowed to appeal to my friends and countrymen for their support in the new turn of affairs. I shall leave to history the task of passing judgment on my conduct."

José de Toledo.

Corrientes, June 11th.

TRIP TO SANTA FÉ.

RAILWAY INAUGURATION.

The railway which we inaugurated runs from the city of Santa Fé to the colony Lehmann, one of the most recent formation, and distant 100 kilom. from the city. A year has scarcely elapsed since Messrs Hume Bros. signed the contract, and so rapidly have the construction works been carried out, that many parties naturally asked for some information about the company in England that directed the works. But the Santa Fé colonies railway enjoys the great privilege of being built without the formation of a company; the negotiation of a loan; or the arrangement of any of those customary formalities which form the early history of every other railway in the country.

Through the great financial ability of Dr. Don Lucas Gonzalez the Santa Fecinos have obtained a fine well built railway, built with London money. It belongs to Santa Fé, and will in course of time form a very strong element of provincial revenue.

The law authorizing the construction of the railway was passed in November 1882. It authorized the Government to contract with Messrs Meiggs and Sons, of London, for the construction of the railway narrow guage, steel rails 45 lbs per metre, hard wood sleepers and with the required stations and rolling stock, for the fixed sum of £3,250 per kilom. payable in Santa Fé, 5 per cent. Bonds to the contractor at the firm price of 80 per cent; these Bonds only to be issued as the work was done, the contractor paying the service during construction and when the line opened the earnings to be applied to paying the service of the Bonds and in case of surplus same to be handed over to the Government. The railway and its earning were hypothecated to the holders of the Bonds, and in case the earning of the line was insufficient to meet their service, the Government of Santa Fé to make good the deficit, the Government binding itself to give to the contractors all the land necessary for the line.

Such were the terms of this admirably combined law and contract and on precisely the same contract terms the Parana and Concepcion railway is now being built, with this difference that as Entre Rios does not enjoy as good credit as Santa Fe, the Entre Riano Bonds have 6 per cent. coupons instead of 5 per cent. We would call much attention to the smoothness and ease with which this Santa Fé railway has been built, finished and opened; since if it is possible to construct railways in Santa Fé on such very favorable terms, how much easier ought it to be to make railways in the rich province of Buenos Ayres, if we have a Dr. Lucas Gonzalez to make the financial arrangements.

The population of the province of Santa Fé is estimated at slightly over 300,000 souls, and it cannot fail to be of interest to our readers to know that when the first colony was started in 1858, the total population of the province was only 41,261, including indians, but in a matter of such deep importance as population we think it useful to give our readers the following table, to instruct them as to certain facts not generally known.

In a previous letter we stated that for a period extending over 250 years Santa Fé slept and passed through a semi-Indian epoch, behold the figures.

In 1583, Don Juan de Garay with 80 Spaniards and 1,500 tame Indians founded Santa Fé and in 1809, the population had only risen to 12,320. We give the following table with our authorities:—

Year.	Inhabitants.	Authorities.
1797	12,600	Azará
1809	12,320	Lafuente
1819	15,120	do
1825	15,000	Nuñez
1839	22,480	Lafuente
1849	19,720	do
1858	41,261	Primer empadronamiento
1860	48,000	Moussy
1865	48,900	Estadistical Nacional
1869	89,117	Primer Censo
1874	110,953	Grondona
1875	135,000	R. P. Handbook
1876	160,000	do
1880	190,000	Larguia

Except in the history of the rise and progress of the western states in the great North American Union, we find no parallel for the table, which we now give of the growth of these Santa Fé colonies, and when we consider that, whatever Santa Fé has done in the way of colonies, Buenos Ayres might have easily done ten times over, had her public men directed their attentions that way, we arrive at the conclusion that whilst Santa Fé slept for 250 years and passed a semi-Indian existence, now that she has awoke to life she has done more in agricultural industry within the last 27 years than Buenos Ayres since its very foundation.

The following is a list of the existing Santa Fé colonies with the dates of their founding and the names of their founders:—

LOSS OF THE GUADIANA.

TESTIMONIAL.

Caravellas, Brazil
June, 22nd 1885

To Captain Charles W. Hanslip
Captain of the Royal Mail
Company.

Sir,

We, the passengers of the steam-Guadiana, desire to express to you and to your officers, our hearty appreciation of your courage as seamen and your kindness as gentlemen. The lamentable accident which has changed our course and the distress we have suffered together has not only served to make us friends, but has afforded us a better opporrunity to judge of your courage and that of your officers, than fair sailing would have given. We have fully realized the embarassments under which you have labored, and no man could have done more to secure our comfort and pleasure.

The discipline of the ship, and the patient and courageous endeavours to save our luggage as well as our lives have won our admiration as well as our thanks, and we desire you to know that, as passengers under your care, we owe you many obligations, and as friends you deserve and have our sincerest sympathy.

(Signed)

Solon O. Thacker, Envoy Extraordinary, Minister Plenipotentiary, Special Commissioner of the U. States to Central and South America.
William E. Curtis, Beckford Mackey, United States Consul in Rio Grande, Susie A. Wood, Pedro de Mello Souza, junior, Ella Crandall de Mello, John N. Turpin, John W. Adams, Henrietta J Powell, Thos. R. Wood, Methodist clergyman at Rosario, Argentine Republic, T. Mitchell, B. Lorenzo Hill, A. Hartog, N. Kaurt, Ernest Cochrane, Com. Howerfell, Secretary to the U. States Embassy.

LONDON LETTER.

"WHO KILLED COCK ROBIN?"

(*From our own Correspondent.*)

June 11th.

That is the question we have been discussing for three days since the defeat and resignation of the Gladstone Cabinet. I cannot say that we are yet in accord as to the solution of the problem. I see, in one of the Buenos Ayres STANDARDS just arrived, that the fall of the Ministry was plainly predicted to occur in June. That was a very good shot on your part; but if you think the defeat had anything to do with the foreign policy of the Government, you are quite astray. The Cabinet for a long time has been divided against itself, and we all knew that it was only hanging together until the election, and the only serious question in prospect, in the meanwhile, was the Irish Coercion Act. It was understood that in that respect some compromise would be effected, and it was even reported that Lord Spencer had agreed, if the modified Coercion Act was passed for two years, he was prepared to accept, ultimately, a liberal measure of Home Rule—or local self-government—involving even the abolition of the Viceroyalty. It is not yet clear that this conditional concession, on the part of Lord Spencer, Lord Hartington and the Whig element in the Cabinet, would have satisfied Mr. Chamberlain and Sir Charles Dilke. Indeed, since the fall of the Ministry, we have heard that just before that event the resignation of those gentlemen was only a question of a couple of hours. It was also reported, that when the result of the division on Sir Michael Hicks Beach's amendment was known in the House, Mr. Trevelyan turned round to Sir W. Vernon Harcourt and said—"I was sure Spencer would bring this on us sooner or later." Mr. Trevelyan has thought it worth while to publicly deny the truth of the story. It was certainly *ben trovata* and confirmed Mr. Parnell and his associates in the belief and boast that it was they who had the pleasure of wreaking their revenge by giving the final stab to the Cabinet which once knew "buckshot Forster," and still possessed a Lord Spencer. But there are other claimants. The honour of contributing to the defeat of the Gladstone Administration has been ascribed to the Liberal Scotch members, who stayed away from the division on the Budget Amendment rather than vote for a tax on whiskey; but on examination of all the circumstances the Scotch members must be exonerated: and, as for the Irish party, they are a constant factor in [illegible] calculations, and [illegible] points to the conclusion that [illegible] was an accident. [illegible] perhaps, more embarrassing to the glorious Opposition than to any one else. Lord Richard Grosvenor, the Whip, has been blamed, and you will have seen in the papers of the 9th, the pathetic appeal of how he went up to the aged Premier to apologize, and how Mr. Gladstone shook him warmly by the hand, with an air at once of forgiveness and of sad acknowledgment that his day of political activity had at last come to an end. The two whips which Lord Richard Grovesnor sent out were doubly underlined, and represented the necessity as urgent for the attendance of Liberal members when the division was taken on the Budget Amendment. Still the Liberal members, for one reason or another, did not consider the case to be urgent, and no less than 60 or more stayed away; hence, in a comparatively small House of 500 or 516 members, the Opposition, better whipped up, and with the assistance of the Parnellites, managed to get a scratch majority of 12. The small majority, at such a juncture, when a dissolution was only a question of weeks, and when duties on beer and spirits, and even the death duties were secondary questions compared with others at issue, was clearly not sufficient to warrant the immense inconvenience of an interregnum, and, we must all admit, that it looks very much as if Mr. Gladstone, seeing the hopelessness of keeping his team together, preferred to go out on the Budget Question rather than on a question of principle, such as that involved in the Irish Coercion Act, and particularly as his own sympathies are with the views of the Radical colleagues in the Cabinet, but, as usual, he had not the courage to resist the will of Earls, and Dukes, and Bishops, and Lord Chancellors and Dons, who, perhaps, naturally to him, still represented in the aggregate the England of his period. As in his foreign policy, he has in his domestic policy been fencing and postponing until his own supporters in the House not knowing what he wanted, or what he intended, abandoned him at a crucial moment, not with the intention of his overthrow, for some fifty of them, some members for places in Scotland, some for Irish, some for Welch, and the most of them for English constituencies, have sent puling excuses and apologies, and have had the pleasure of seeing their names posted in small-caps in the papers as the "Black List." Some of them had married wives and could not come. Others had not understood the whips as urgent; some had private affairs to attend to; some had colds in their heads; and one or two only openly condemned the foreign policy of the Government as their duties, on beer and spirits.

Before this mail leaves other facts may come to light that may alter any opinion formed; but at the present I think I am right in attributing the defeat of the Government to sheer accident, having like all accidents remote causes if we trace them. The remote causes in this instance are firstly, Mr. Gladstone's own unhappy tendency to be "dark"—the darkness not being deceit, but mere result of indecision of character. Hence he is never quite 'en rapport' with his own party. Secondly, the ungraciousness and want of tact in men of Mr Childers' school of Liberalism—severe and religious—minded and worthy men towards whom Mr Gladstone leans; and it is the smear of quakerism or puritanism, which has all along disfigured his Cabinet—not morally but politically; because it is out of keeping with the cosmopolitanism, so essential in Government at the present day. Mr. Gladstone and his friends are too English, and too prone to middle class cant. It was in the highest degree indiscreet in a temporary budget and virtually a war-budget, to irritate, for conscience sake, two great interests, the landed interest—in the probate duties—and the liquor interest. The attack in force on both should have been left to the reformed Parliament. To raise the duties on beer and spirits, and then reduce the amount in face of the yells of brewers and distillers in England and Scotland, was weak and pottering. The budget should have been re-cast.

The Aconcagua's Mails.

DATES FROM EUROPE UP TO JUNE 24

The arrival of Sir Peter Lumsden in London was the occasion for a popular demonstration.

The withdrawal of General Sir P. Lumsden from the Afghan frontier was considered in England and throughout Europe as a humiliating blow to British power and supremacy.

Latest intelligence from Simla announces the loss of 3084 persons and 70,000 houses, in consequence of the violent earth-movements which are at present felt in the province of Cashmere.

A telegram from Madrid dated June 23rd states: Yesterday 6 cases of cholera were reported here and 815 in the province. Over 315 deaths from cholera occurred yesterday.

The following is the official account of the disturbances which occurred on June 20 in Madrid: Several groups provoked the police who with drawn swords endeavoured to maintain order, but in vain. Some minutes after this a troop of guards received orders to drive the rioters from the Puerta del Sol. The people were seized with panic when they perceived the advance of the guards, and fled in all directions. Subsequently the rioters rallied and were again dispersed by the guards, whereupon shots were heard. The guards were then ordered to fire on the crowd. The number of killed and wounded was not insignificant. The rioters fought with stones for the most part.

A recent telegram from Yokohama, Japan, announces that a squadron of English warships anchored in that harbor. The Admiral of the Russian squadron, stationed in these waters, showed signs of being hostile, having lowered his torpedo-boats. Fortunately no rupture took place, but the incident created great excitement amongst the English residents in Japan.

With reference to the explosion that occured in the coal-mines near Manchester, a telegram states:—"A terrible explosion has taken place in the Clifton Hall coal-mines in the vicinity of Manchester. These mines are the richest in England. There were many workers in them at the time of the explosion. One hundred perished."

Riel's trial will take place on July 15th, at Regina. His counsel have been trying to get the case transferred to the Courts of Lower Canada, but without success. The trials of Poundmaker and other prisoners will follow that of Riel.

Telegrams received from the North-West to-day state that Big Bear is still master of the situation, eluding all pursuit.

The Pittsburg iron strike was yesterday compromised, by means of a joint meeting of the committees representing both sides. The strike ended in Pittsburg by the employers conceding the major portion of the workmen's demands, the latter accepting a 10 per cent. reduction in their wages for the coming year. The Pittsburg mills can resume work if the masters wish it, and several have already started their fires.

The strike to the west of Pittsburg continues. The masters, declining to yield, withdrew yesterday from the conference. The mills of Chicago, Cincinnati, Wheeling, Mahoning, and Shenango are still idle, keeping unemployed about one-third of the total number of the workmen who struck.

The ironmasters state that the three weeks of idleness during the strike have reduced the output, so that the market is in a healthier condition.

General Grant was greatly fatigued by the excessive heat and dust during ing the journey yesterday to Mount McGregor.

The French steamer Isére, conveying Bartholdi's statue of Liberty, arrived in New York harbour to-day. Arrangements are being made to give her a grand escort to the city on Friday, several American war ships in the harbour, with the vessels of the New York Yacht Club, participating.

General Grant is weaker this afternoon, though he is able to speak in a whisper. The members of his family are discouraged by the signs of his increased weakness.

Mr. Chauncey M. Depew has been elected President of the New York Central Railroad. Mr. Depew has been second Vice-President, and also Chief Law Officer of the Vanderbilt railways.

Further reports received of the destruction wrought by the cyclones in Iowa on Sunday and Monday last reveal a terrible loss of life in Plymouth and Cherokee counties, with great devastation of property. Twenty lives were lost, and more than 50 persons were injured in Iowa.

Rumours have for some time been prevalent that agents of the Spanish Government were in Washington on a secret mission—that of selling Cuba to the United States. Whether these rumours be true or untrue, there is no probability that President Cleveland will entertain any such proposal.

THE SALMON INDUSTRY.

With reference to his project for the introduction of salmon into this country, as a means of encouraging a new industry, Dr. Zapata delivered the following speech in the Chamber of Senators:—

"The Argentine Republic utilizes its coasts and rivers with a view to encouraging navigation. It may be said that the country pays no attention to the immense profits that might be reaped from the fishing industry. This is not to be wondered at; the rivers, lakes and seas of the country are not utilized for this purpose.

In the Northern part of the United States, where the rivers and seas cannot be compared with ours, the fisheries constitute the principal source of wealth. And why, it may be asked, does not the Argentine Republic, highly gifted by nature in this respect, utilize these immense sources of production?

I shall have recourse to figures, to prove the importance with which my project is invested: In the Northern parts of the U. States, in 1880, 131,430 persons were employed in the extensive fisheries. The capital sunk in the enterprise amounted $37,955,349, and the returns for the same year were $43,046,053. I do not wish, Mr President, to place the Argentine Republic on a parallel with the U. States which has immense sums invested in its fisheries, and a population far more numerous than ours. The object I have in presenting this project is that our Republic may reap some profit from its rivers and coasts.

The introduction of salmon cannot be attended with any noteworthy difficulty, and we must begin by introducing the fish in question, for, in fact, we must begin with something. Many scoffed at the idea of agriculture in this country, and yet to-day our agriculture represents 9 millions of dollars. This is a parallel case.

To my mind, to procure the desired results which would spring from the success of my project is a question of 'bonne volonté.' We have magnificent rivers; we consume a considerable quantity of salmon, and we require another article of export. Salmon breed in rivers communicating with the sea, and seek their food in the sea. They generally agglomerate near the source of rivers, so that this fish cannot impoverish the water of the river. They multiply in the most extraordinary manner and the only attention requisite is to see they are not completely exterminated.

In England, Norway, Spain, United States, and other countries the salmon industry is an immense source of wealth. I shall again fall back on figures to carry out my statement. In England, I believe, in 1882, the quantity of salmon caught was 370 tons; in Scotland 2110 tons; in Ireland 1130 tons, representing a total value of 2 millions of dollars. In the United States, the salmon export for 1884 represented $2,433,257, excluding the home-consumption which is estimated at $2,566,443. Thus the United States' salmon industry produces $5,000,000 annually. But private persons reap great profits from the salmon fisheries; thus, for example, the Grey River gives the Duke of Richmond an income of £13,000 by its salmon alone. In 1874 the Columbia, —this is exceptional—produced a million sterling with the salmon caught.

To better explain the importance of the salmon fisheries in the U. S ates, I may state that there are over 10,000 persons employed, in one State alone, in this industry. In such rivers as the Parana, the Negro, and Colorado, the salmon would thrive well. The temperature of the water in these rivers is never below 27°. And we know that salmon thrive in rivers the waters of which do not even possess this temperature.

Convinced of the possibility of salmon thriving in our rivers, and above all of the importance of such an industry for the Republic, I have considered it my duty to present this project. A sum of $40,000 is offered to anybody who will introduce salmon into our rivers and in sufficient quantities to constitute an industry. This sum is insignificant when compared to the immense profits the country would reap, in the event of the introduction of salmon.

FEW GOOD RECIPES FOR HOUSEHOLD USE.

To Make Bread.—To every pound of flour add a *large heaped-up teaspoonful* of BORWICK'S GOLD MEDAL BAKING POWDER with a little salt, and *thoroughly mix* while in a dry state, then pour on gradually about half-a-pint of cold water, or milk and water, mixing quickly but thoroughly into a dough of the usual consistence, taking care not to knead it more than is necessary to mix it perfectly; make it into *small* loaves, which must be *immediately* put into a *quick* oven.

Puff Paste.—Mix one pound of flour with a teaspoonful of BORWICK'S GOLD MEDAL BAKING POWDER, then cut half-a-pound of butter into slices, roll it in thin sheets on some of your flour, wet up the rest with about a quarter of a pint of water, see that it is about as stiff as your butter, roll it to a thin sheet, cover it with your sheets of butter, double it in a three double; do the same five times, it is then fit for use, or it may stand an hour covered over to keep the air from it.

To Make a Rich Plum Cake.—Take half-a-pound of butter and half-a-pound of white sifted sugar, beat these with the hand well together to a cream, add four eggs, one at a time, and well beat each one with the butter and sugar, lightly mix in one pound of flour previously mixed with one teaspoonful of BORWICK'S GOLD MEDAL BAKING POWDER, then lightly mix with the whole half-a-pound of sultanas, bake at once, thoroughly, in a quick oven.

To Make a Good Plain Cake.—Mix well together one pound of flour, two teaspoonfuls of BORWICK'S GOLD MEDAL BAKING POWDER, a little salt and spice, and a quarter-of-a-pound of sugar, rub in a quarter-of-a-pound of butter, add six ounces of sultanas, two ounces of currants, and one ounce of candied peel. Beat up then the whole with two eggs and half-a-teacupful of milk previously beaten together; bake in a quick oven very thoroughly.

Scotch Scones.—Take one pound of flour, add a *full* teaspoonful of BORWICK'S GOLD MEDAL BAKING POWDER, and a little salt, mix thoroughly while dry, rub in two ounces of butter, beat up one egg well in a quarter of a pint of milk, then thoroughly and quickly mix together; bake immediately on a griddle or in a quick oven. This will make eight delicious scones.

Tea Cakes.—Use the recipe as for scones, but add a few currants, sultanas, or caraway, if preferred.

Short Bread.—Mix well together one pound and a quarter of flour, a large teaspoonful of BORWICK'S GOLD MEDAL BAKING POWDER, and half-a-pound of white sifted sugar, rub in half-a-pound of butter, mix the whole with three eggs, previously well beaten, and a little essence of lemon. Make four cakes out of five ounces of dough, mould into a round form then roll them out into an oval shape, pinch them round the edges, put a piece of candied lemon peel at the top, and bake slowly.

Rice Biscuits.—Take half-a-pound of sugar half-a-pound of best ground rice, half-a-pound of butter, half-a-pound of flour, and half-a-teaspoonful of BORWICK'S GOLD MEDAL BAKING POWDER mix the whole into a paste with two eggs.

An Excellent Plum Pudding.—Take three-quarters-of-a pound of flour, two large teaspoonfuls of BORWICK'S GOLD MEDAL BAKING POWDER, two ounces of bread crumbs, one-and-a-half pounds of suet, two pounds of raisins, one pound of currants, ten ounces of sugar, two ounces of almonds, one pound of mixed candied peel, salt and spice to taste, mix ingredients well together, and add six eggs well beaten, and three-quarters-of-a-pint of milk, divide in two and boil eight hours.

Pancakes or Batter Pudding.—Take half-a-pound of flour, two teaspoonfuls of BORWICK'S GOLD MEDAL BAKING POWDER, a little salt, mix well in a dry state, add one egg, and three-quarters-of-a-pint of milk.

Norfolk Dumplings.—Prepare the dough as for bread, put into a saucepan of boiling water immediately, and boil twenty minutes *without taking the lid off.*

SUEZ CANAL TRAFFIC.

The British directors of the Suez Canal, in the introductory report prefacing their returns, state that the size of vessels navigating the Canal is increasing year by year, but they do not give the exact amount of that increase. A comparison of the figures shows that in 1882 the average size of such vessels was about 2,230 tons, whereas last year it amounted to over 2,530 the return in each case being of gross tonnage. In the matter of size it appears that the British vessels are slightly above the average, which is brought down to its present level by the small ships owned by the smaller maritime nations. The average gross tonnage of British vessels last year was rather over 2,550, against a considerably smaller capacity in former years. Of the other Great Powers Italy possesses the largest ships engaged in these voyages. She is the only nation which sent through the Canal ships averaging over 3,000 tons. Germany, on the other hand, despatched smaller vessels than the other Great European States, her average capacity being barely 1,800 tons. France which stands next to England as a country trading through the Canal, sending little less than ten per cent of the total traffic, allowed an average of 2,760 to each vessel; Holland, which comes next, is credited with 2,480 tons per ship. The number of nations using the Canal seems to fall off gradually, as it was 18 three years ago and is now only 16. The five countries which have disappeared from the list are Siam, Greece, Zanzibar, and China—probably in the last case a temporary disappearance owing to special causes. And the new appearances are Japan with 13 vessels. America with four, and Sarawak with one little bark of 179 nettonnage.

EDITOR'S TABLE.

Hurrah for the Nauquen!! Yesterday the Government land auction was more crowded than ever; we give in our on 'Change columns a full and complete report of this wondrous sale. Some of the lots sold for over seven thousand five hundred Nats. per league, which is perhaps the highest price ever paid in this country for land, when we take into consideration its locality and enormous distance from Buenos Ayres.

The telegrams from Europe last night were more warlike than ever, and it looks extremely likely that we are on the eve of very stirring events. We may add that the fall in Consols was known in town on Wednesday evening, but kept up.

The Royal Mail steamer Neva clears to-day, taking in gold the very heavy remittance of £212,000 sterling. This shows there is still corn in Egypt.

We note, in the advices from Rio, that they have raised a large subscription there for the unfortunate families of those lost in the Humber. The money may be returned now.

Yesterday President Santos signed the law suppressing convents in his blessed country. He never put his name to a more stupid law. Some of our most cherished associations are linked with the poor, inoffensive nuns, who do so much good, and, with all our civilization, we can never do without them.

Professor Martin read a very interesting and amusing paper on "Playing Cards" at the Literary Society on Wednesday evening. The Professor treated of the History of cards from the earliest times, and entered into a description of the different and numerous games played with them. He concluded by denouncing gambling in the strongest terms, and in speaking of this, referred to the Lottery ticket nuisance as a disgrace to the city of B. Ayres. Professor Martin considered the amusement derived by those who played cards "purely for amusement counterbalanced the gambling they might be the medium of. Gambling he thought was conducted to a much greater extent in other ways than by the agency of cards, and if cards were done away with society would miss them greatly. Mr. Peake supported Mr. Martin and Messrs Colquhoun, Begg and Denstone, spoke chiefly in opposition to Mr. Martin's view, regarding cards as tending to be a gambling medium. Professor Pressinger closed the meeting with many thanks to Mr. Martin, who he said was ever ready to assist the society, and had that evening instructed and greatly amused the members present.

The latest dodge amongst young scamps in Rosario is to call for supper at a resturant, or what passes for such up there, eat and drink of the best, get up a mock shindy amongst themselves, go into the streets to fight it out, and then mizzle.

More Municipal red tape. The unhappy beings condemned, for their sins, to live in Calle Caseros between Lima and Hornos have been praying and petitioning the Lord Mayor for years to fill up the dangerous pantanos, three in number, in their square. His Lordship would not listen to them; so the Southern Ralway company took compassion on them and filled up the sloughs with the nicest ashes. Instead of thanks, the Lord Mayor imposed a smart fine on the company!! How very like his Lordship this is.

What a blessing in disguise! Siam has joined the Postal League. We are open to offers from stamp collectors for the "timbres" on our first exchanges from the land of white elephants.

We're rather tired reading the same story about the public health every fortnight for the last six months, in the *Revista Medica*: For goodness sake colleague, change your tune or shut up. "Toujours" consumption, rheumatism, and small pox "ne valent rien."

Signor Gardella who made a target of Dr. Barbieri some time last year, and very nearly did for "that eminent practitioner, has been sent to the Penitentiary—"it may be for ever"—by Judge Torrens.

When are we to have the long-promised Wash Houses. It is terrible to see how the poor washerwomen suffer on the bleak banks of the river this weather. On Wednesday one of them fell paralyzed with cold, and had to be carried home by other creatures suffering almost as much as herself. The system of washing in this city would disgrace the Cannibal Islands. The money thrown away on that wretched rockery and waterfall at the Recoleta would have been far better employed in a washhouse.

Our truly Rural Society has gone back to its first love, and is now devoting its whole mind to a plan for the universal abolition of "biscachas." Estancieros should back the Society up in this. These filthy rodents cause enormous loss in a number of ways.

Judge Arrotea ordered yesterday that the money which the late Mr. Terence Moore had in account current with Messrs Carabassa and Company at the time of his death (277,000 Nats) be transfered to the National Bank.

Reuter's Life Syrup No. 2!

A positive and radical cure for **every form of** bad blood, foul humors, scrofulous sores, Ulcers and Tumors, guaranteed to cure and eradicate every vestige of Syphilis, **primary, secondary and tertiary.** It is the only cure known for Leprosy, or Psoriasis, cancerous lumps, scaly and scabious eruptions, mercurial itching and pimply affections. **Warranted to be** a safe and certain remedy for all diseases of the Kidneys, such as Bright's Disease, Granulated Kidney, fatty degeneration, chronic inflammation, etc. The best of all stimulators and correctors of the Liver, promptly removing torpidity, hardening, and enlargement, liquifying the bile, causing it to flow freely into the bowels, thereby preventing and removing constipation, dyspepsia and indigestion, thus removing the cause of headaches, dizziness, nausea, palpitations, hysteria and fainting. A fair trial of the **Life Syrup No. 2,** is all that is asked. We positively Guarantee **A COMPLETE CURE!**

EDITOR'S TABLE

(*Continued from 1st page*

Poor Dr. Pellegrini's nose is quite out of joint now. Nobody thinks of him or his loan. Dr. and Colonel Toledo is the man of the day. Such is life in the Plate.

A sailor named Frederick Small, of the British steamer Tuscany, now in Rosario, fell into the hold of the ship while on watch early on Monday morning, and dashed his brains out. Dr. Covernton was summoned in all haste, but the man was quite dead when he arrived. The poor fellow was tipsy when he met his fate.

The Carmen de Areco police, under Mr. Commissary Barragan, have discovered the corpse of poor young Diaz, who disappeared suddenly last week. The Neapolitan suspected from the first is the criminal. The body was found buried in his kitchen.

The House of Lords in Montevideo has just been stuffed with gaudy gilt furniture from Paris, and looks like a first class American bar. The Senators are quite in love with the *taste* of their new 'muebles,' and it would be cruel to put them out of conceit with them.

The latest telegrams from Rio say that His Majesty the Emperor Dom Pedro is much better and out of danger.

"Captain Grant's Nephews," at the National Theatre, produced 21,000 Nats for the lucky empresario in 12 performances.

The Damas de Beneficencia have fixed the 14th of August for the new Bolsa ball. All the world and his wife will be there. The prices of tickets are high, quite too high—20 Nats for a family and 10 for mashers and men who are familyless. Few bachelors under 30 can afford 10 Nats for a ball, and those over that age are not such geese as to pay so much for a hop, whether they can afford it or not.

The volunteer Fire Brigaders of Rosario threaten to burst up, if 'el comercio' does not stump up funds to keep them going. The indications are strongly in favour of their being allowed to burst as soon as they like. The value of an amateur Fire Brigade is within measurable distance of being an unknown quantity.

It's quite amusing to see the vehemence with which our talented little colleagues in every town in the Interior take up the Presidential electioneering question and write themselves black in the face for their respective candidates. Their exertions will have about as much effect on the final result as a leader from our Fleet Street friend *Punch*. They all seem dying to punch each other's heads.

"Tramway" is what a Bahia Blanca paper calls its Editor's Table. Miserable! Yet "what's in a name?" Very often nothing. But there is a good deal of news, nonsense and 'novedades' in our colleague's "Tramway," which we hope may never get off the line.

Talking of Bahia Blanca! We weep to read that the Monte Hermoso lighthouse, about which such a prodigious fuss was made when it was put up, is not worth Adam. A local colleague says it would not fetch 500 paper dollars at auction. Bullrich or Ebbeke might knock that out of it; but no other Knight of the Hammer could.

Mr Paz Soldan gave another very interesting geographical lecture at the National College on Wednesday night. It was a model lecture, short and sweet, and all over at 9 o'clock. The subject was "the very inconvenient boundaries of the Argentine provinces."

A French investigator has discovered that the character of a person's dream depends in a great measure on which side the sleeper lies. The dreams of a lawyer, then, who habitually lies on both sides, must be very much mixed.

The opinion is entertained now by many men of science that the art of making artificial stone for structural purposes is prehistoric, and that the Pyramids were, in fact, built of artificial blocks, manufactured from the surrounding plain.

Paysandu, the ball-player, got jolly well licked the other day, in a big game on the other side of the water. His backers went home groaning in spirit and quite done up in body, as they lost an awful lot of hard cash.

Smuggling is the most popular trade going in these regions. A Russian vessel is in trouble in Rosario in this connection. What the smuggled goods are, whether Polish lances, Siberian bearskins, or Crimean shirts, we really cannot say.

The Rajneri opera company is going to stop in Montevideo until September. When Rajneri leaves the new Port works will be commenced. Queer coincidence!

ST. ANDREW'S SCOTCH SCHOOL.
Buenos Aires.

The Committee of Management desire to call attention of Parents and Guardians to the following announcements:

I—It has been arranged that holidays corresponding to the Christmas holidays in England will be given this Session, the said holidays to extend from June 24th to July 5th, both days inclusive. This arrangement has been made in consequence of complaints as to the length of the School year and the consequent strain on Pupils when there is no break in Mid-session.

II—Owing to the increase of Pupils and the necessity of conducting classes according to the most modern methods, a new and commodious Class-room has now been added to the School.

III—The Committee has been fortunate enough to secure the services of a competent Spanish Master, who will limit his tuition to that subject.

IV—Arrangements are in progress for bringing out an Assistant-master from England, who in addition to qualifications of scholarship, will be a thoroughly trained Teacher, and is hoped he will be here at an early date.

V—Music, which heretofore has only been taught before and after school-hours, will now be taught during school-hours as well. Miss Porteous will continue as before at the former fees, while Miss Gallacher will teach during school-hours. Her fees may be learned on application at the School.

The Committee in making these arrangements have been actuated by a desire to render the School thoroughly efficient, and they are satisfied that the Institution when thus re-arranged will compare favourably with any private school in town.

It is hoped by the Committee that the above arrangements will meet with the approbation of all Parents and Guardians of the School's Pupils.

Buenos Aires, June 1885.

By Order of the
COMMITTEE

En nuestra casa

78—ALSINA—78

Llamamos la atencion de los compradores de tierras sobre los campos que remataremos el dia arriba indicado teniendo presente que cualquiera de los lotes esta en muchas mejores condiciones, tanto por su situacion calidad de sus pastos, topografia y precio, que los que acaban de venderse en el triangulo del Limay y Nauquen que estamos seguros, ninguno de los compradores habra inspeccionado ni ira a verles, mientras que cualquiera de los lotes que abajo enumeramos pueden ir a verlos con toda comodidad antes del dia del remate.

Los campos que ofrecemos son:

7 1/2 leguas de los famosos campos superiores sobre el Sauce Grande, a 6 leguas mas o menos del gran puerto de Bahia Blanca, marcado en el plano de Meinecke con los nombres J. A. Ocantos, Rivarola, Varela y Arce, hoy otros propietarios.

7 leguas campos nacionales en la seccion V. Nos. 4 5 y 8, letra A, campo de primer orden.

24 leguas en la provincia de Cordoba, departamento del Rio Seco en lotes de 4 leguas cuadradas Nos. 21, 22, 24, 25, 30 y 34, a solo 20 leguas de la colonia Sunchales, donde va el ferro-carril de Murrieta y Ca.

5 1/2 leguas excelentes campos por Gainza, seccion I letra A Nos 21 y 27, con el ferro-carril Transandino a la mano y rodeados de grandes establecimientos.

18 1/2 leguas en Cordoba, departamento de la Union, sobre el ferro-carril de Clark, Nros. 39, 40, 41, 42 y 56, (Portezuelo), campos primer orden, lindando con Funes, Olmos y otros, cuyos campos estan cercados, quedan entre Villa Carlota y una estacion del ferro-carril de Clark, es decir en la parte de esa provincia, lindera con la de Buenos Aires.

29 leguas campos nacionales seccion IX letra A Nros 23 y 24, N 2, mitad del 3, letra D, N 4, quedan a corta distancia del pueblo General Acha, donde se venden a 10,000 ps m/n legua.

Seccion III lotes Nros 20 la mitad Norte o sean 1 leguas y dos legua Norte del N 19. Seccion IX mitad del lote 21 letra D. Seccion 10 letra B 2 leguas la parte sud del num 23. Seccion 6ª lote num 6 letra A.

3/4 leguas provincia de Buenos Aires, a 4 leguas de Bahia Blanca, marcado en el plano Meincke con J Arce, lindando con J M Blanco, Chantini, Amado, Arcena, (hoy Ocantos) y otros. Esta actualmente poblado con ovejas.

2 1/4 leguas provincia de Cordoba, departamento San Justo, de pastos fuertes lote num 68 del plano de Cordoba y sobre la frontera Santa-Fé quedando frente a la colonia San Martin 10 leguas.

4 leguas kilometricas en Bahia Blanca, seccion 4, lote num 56, 2 leguas con opcion al todo.

50 leguas cuadradas sobre el Rio Alto Parana, departamento de la Candelaria y a 15 leguas de Posadas campo apropiado para ganaderia una parte, y la otra parte con grandes montes de diferentes clases de maderas duras cruzadas por arroyos navegables y donde se encuentra el puerto del Yerbal lindando con el Sr Coronel Rudecimo Roca y con Jose Gregorio Lezama.

30 leguas de campo situadas al Norte y Nord-oeste de la Mar Chiquita es decir en el departamento de la Provincia de Cordoba lindero con la de Santa-Fé y por cuyas inmediaciones debe pasar el ferro-carril a los Sunchales en construccion y que llega ya a la colonia Lehmann.

El detalle de las 30 leguas es como sigue:

Lote num 13 fraccion D del departamento de Tulumba compuesto de 4 leguas.

Id No 5 del departamento de Rio Seco compuesto de 4 leguas.

Id No. 4 fraccion B del departamento Tulumba compuesto de 4 leguas 48 cts.

Id No 5 id B id id id id 4 leguas.

Id No 5 id A id id id id 3 leguas 276 cs., 16,500 varas.

Id No 6 id A id id id id 3 id 196 cs. 3827 id

Id id 7 id A id id id id 3 id 327 id 16,500 id

Id id 12 id A id id id id 3 id 1537 cuadras.

8 leguas kilometricas en la seccion IV, lotes Nos 6 y 20, letra D, campos excelentes y rodeados de importantes establecimientos rurales.

4 leguas kilometricas, seccion 1a, de los terrenos devueltos por la Nacion a la Provincia de Cordoba—quedan a pocas leguas del Ferro Carril Transandino.

1 legua 931 cuadras y 6515 varas cuadradas Provincia de Cordoba, departamento de San Justo, Serie A, lote 4.

4 leguas kilometricas en Lincoln, pobladas, redesadas de grandes establecimientos hechos; marcados en el plano de Meinecke con el nombre de O Berkow.

Las condiciones para la venta seran muy muy ventajosas y a plazos comodas.

Planos y detalles se repartiran en folletos, en nuestra casa Alsina 78.

JUDICIAL

De Una Legua

DE

CAMPO

El Domingo 26 de Julio

En el pueblo de Junin

Hotel de D. Antonio Valente

(Plaza principal)

A la 1 p.m.

Segun el aviso publicado en los diarios "La Plata," "El Dia," y "La Prensa." Una legua de campo perteneciente a la sucession de Don Manuel Villarino, conocido por de D. Alejandro Perez de Villarino.

La Estacion Vedia del Ferro Carril Trasandino se encuentra a quince cuadras de este campo; estacion importantisima por su posicion con relacion a Lincoln, Lavalle, y Colonia Feodelina, por ser el punto esclusivo de comuniacion de estos tres centros de produccion, con los mercados de la capital de la Nacion y de la Provincia, Ferro Carril a San Nicolas etc.

El campo linda con los establecimientos del Dr Green, J y B Suarez, Santos, Martinez y Quinteros, y a 20 cuadras de San Carlos, del Sr Oostendorp, y los interesados que quieran ver el campo podran ir en un tren que sale cada dia de Junin a la estacion Vedia.

Este campo poblado de muchos años, y recargado hasta hace años, con 2500 a 3000 cabezas de hacienda mayor, con 4000 ovejas, y un cultivo constante, de 40 a 50 cuadras anuales, se encuentra en condiciones escepcionales de refinamiento el grado de reproductese espontaneamente, a cardo asnal, de castilla, trevol, flor morada, capiqua y muchos ricos pastos.

El establecimiento tiene una magnifica monte de acacia y sauco lo suficiente para alambrarlo 2 veces su area,

LAND-AUCTION

National Government Sale

LANDS

FOR THE

Million

Lands for Estancieros

Lands for Sheepfarmers

Lands for Colonists

Lands for Chacreros

Lands for Everyone

500

SQ. LEAGUES

IN THE VALLEYS

OF

NAUQUEN and LIMAY.

The following is the official notice of this Great Land Auction, which will bring buyers from Europe to invest:—

OFICINA CENTRAL DE TIERRAS Y COLONIAS—Remate de Tierras Nacionales—Con arreglo a la ley de 3 de Noviembre de 1882 y en virtud de lo dispuesto en el decreto de 27 de Marzo ppdo. se venderan en remate publico once secciones de terreno situadas en las confluencia de los rios Limay y Nauquen. La base para la venta sera de 600 pesos la legua. El precio de la tierra debera pagarse la 6ª parte al contado y el resto en cinco cuotas iguales, una al vencimiento de cada año. Las licitaciones tendran ugar los dias 1º al 21 de Julio proximo en la Oficina Central de Tierras y Colonias, establecida en la calle de Salta num. 8 esquina a Rivadavia. Para Planos y detalles, ocurrase a dicha reparticion.—Buenos Aires, Abril 23 de 1885.—EL SECRETARIO.

The general topography of these lands is of the same nature. Without being exactly montainous, the camps are undulating and in some place present the aspect of plateaus where trees grow in profusion, and an abundant mountain grass ("pasto de las sierras") are everywhere to be seen in luxuriance. The valleys or hollows contain innumerable breaks which are a proof of the action of water at a very remote epoch; but these "quebradas" are now dry. However, the grasses and general vegetation seem to meet with no impediment to their growth anywhere. Towards the Nothwestern limit of the polygon slope measured there runs a long or "cañada" which comes to an end in the Arroyo Covunco. The cañada is abundantly watered and soft grasses such as the gramilla, trevol etc. grow in wild profusion.

The valleys along the River Nauquen and Limay are fertile although sandy and comprise small traces of flat lands. Nevertheless, there is a sufficient depth of humus to qualify the land for all agricultural purposes. Grasses grow in abundance especially in the "rincomadas" and in the innumerable islands which are to be found along the course of the river. There are also various classes of forest trees including sarsaparilla.

The valleys are fertile and with rich black earth suitable for agriculture. Along the Limay and on the islands there are forest of Sauce Colorado and Blanco which timber is very useful for building purposes, and it may be added that the Limay on its entire length is navigable for small steamers and vessels that can connect with the navigation of the Rio Negro.

BORWICK'S

BAKING POWDER

Used by thousands for making wholesome Bread, Cakes, Flour-Puddings, &c. Sold in 1d & 2d. packets and 6d. & 1s. boxes, by all Storekeepers and Grocers

Invaluable at the Diggings and in the Bush also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farmhouse bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and BORWICK'S BAKING POWDER. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been 'in the trade,' and nothing I can say will convince them to the contrary."

Four Gold Medals awarded. Manufactory:—G. BORWICK & SONS, Chiswell Street, London.

Dysentery, Cholera Fever, Ague

Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 13th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occured under our personal observation during many years. In Cholera in Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

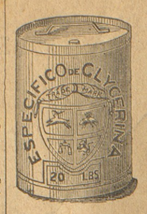
THE GREAT BLOOD PURIFIERS—Bristol's Sarsaparilla and Bristol's Sugar-Coated Pills are a sure remedy for every form of Scrofula. Hundreds of cases that seemed beyond hope have been permanently and completly curedby them.



FACTS NOT WORDS
Still further Testimony of the Efficacy of the Glycerine Dip.

MERCEDES, April 3rd 1885.

Messrs. Moore & Tudor
Buenos Aires.

Dear Sirs

I think it my duty to communicate through you to Messrs. Tomlinson & Hayward, manufacturers of the GLYCERINE DIP that I have used the said DIP for many years, and that you being agents in this country for sale of same I hereby declare that I consider it the BEST DIP for the complete cure of Scab, Footrot, and Maggots; and I should likewise add that some years we have had small pox amongst the lambs, and can guarantee that dipping them with the same mixture as used for scab, the result is splendid. Therefore I have much pleasure in issuing this testimonial in your favor.

I have the pleasure of remaining yours truly

Signed *JOSE H. ARCE*

ON CHANGE

July 16th, 1885

Gold 136½
Cedulas A 100½
Cedulas F 78½

The gold market opened this morning with a slightly better feeling than yesterday and less speculation. There were rather better rumours from Corrientes, and Congress, it was said, would to-day take up the Pellegrini contract. Spite, however, of the better feeling in the market cash gold was felt scarce, and notwithstanding all the efforts of the bears gold for cash held its own whilst for the end of the month and for August prices gave way, and parties who were so anxious yesterday to buy for August at 136½ were able to get to-day all they wanted for that date at 135.

The great topic on 'Change was the gold shipment by the R.M.S. to-morrow. It is said that she will take a very large amount, owing to the low rate of exchange. We think it right to say that although the Italian Bank figures amongst the list of shippers of specie that bank does not ship a sovereign on its own account, and the small amounts which the Italian Bank ships is for Montevidean account, money that it held here for account of a Montevidean Bank.

The gold speculation is in a vacillating state and the market appears to be on the eve of another turn. The bears cling to the hope that the State banks will begin drawing for exchange before the end of the month, and the news to-day was that the exchange committee of the Provincial Bank had met and reported favorably on the contemplated resumption of exchange operations. The bulls, however, have more elements in their favor. The Royal Mail, it is rumored, will leave to-morrow with no less than two hundred thousand pounds in specie from this market. Telegrams from Europe are again gloomy, and the political horizon is again clouded with the Afghan question. All circumstances combine to favor a rise, and the turn that is impending in the speculation points to an upward direction.

Fair amounts of exchange were passed to-day at 46¼d on London, 4.92 on Antwerp, and 4.90 on Paris.

The following is a summary of operations effected this morning at the ring during official hours:—

Gold—
For cash 127,994 135.50-136.50-136-136.20 to 136-136.50
For July 17th 60,600 135.50-136.50
For July 18th 34,400 at 135-136.50-136
For July 31st 465,000 at 136-135.50-136 to 135.80-50-136-135.70-136-136.50
For Aug. 31st 450,000 at 135-135.50-136 to 135.50-135

Sales, 1,137,994

Cedulas—
For July 17th A 3,000 at 100½
For cash F 7,900 at 78½
For July 31st F 30,000 at 78½
Sales, 40,900

Exchange rules firmer, owing to the fact that all the laage takers are shipping gold, which gives an exchange free of all charges of 47½. Thus we may anticipate a possible advance in the rate, since only small takers will remit at 46¾ when by shipping gold they can obtain 47½.

There is great talk in the market as to the actual amount of gold conformes or checks out in the market. It appears that within the last week the circulation of these conformes, has been much restricted, owing to holders sending to the Bank for the gold.

General Ayala passed La Paz yesterday and will probably reach Goya to-day. We give in another column all the latest from that quarter.

Mr Prebble, the well-known railway contractor, has arrived up from Maipu, and was welcomed on 'Change; he reports the railway works down there going ahead fast.

Advices from the Uruguay to-day are unfavorable; the river has risen so suddenly and to such a height that it has caused much damage in Paysandu and other towns.

Mr W Roberts, C.E., has arrived back from the provinces and leaves to-night for Bahia Blanca; he starts for Europe in the mail of the 1st prox.

The fourth Limay auction took place to-day. The 'patio' in Calle Salta No. 8 was crowded at an early hour with bidders. Section VIII, the best offered up to the present, was put up for sale. The 32 lots of the Section were sold as follows:—

Lot.	Area in hectares.	Price per hectare.	Buyer.
1	3,750	$0.65	J. Marini.
2	3,750	0.75	M. Rom.
3	1,954	0.90	A. Arbujo.
4	5,415	1.10	"
5	3,750	0.70	Dasso & Marini.
6	3,750	0.65	"
7	5,378	1.05	? ?
8	5,431	1.10	? ?
9	3,750	0.70	Dasso & Co.
10	3,750	0.65	M. Arena.
11	5,040	1.10	H. Petersen.
12	4,382	1.30	"
13	3,750	0.70	Lebrero.
14	3,750	0.60	Garcia Barros.
15	4,105	1.20	A. Torres.
16	3,887	1.15	C. Lusargo.
17	3,750	0.66	A. Gonsalez.
18	3,750	0.65	"
19	3,578	1.25	C. Lusargo.
20	3,269	1.45	E. Larco.
21	3,750	0.65	D. Sanchez.
22	3,750	0.81	M. Espineira.
23	2,957	1.95	E. Larco.
24	2,959	2.35	V. Cosendi.
25	3,750	0.80	M. Espineira.
26	3,750	0.70	M. Gilet.
27	2,341	3.15	Ferrari.
28	2,104	3.10	"
29	3,750	0.95	J. Asicot.
30	3,750	1.03	Ferrari.
31	2,075	3.65	"
32	5,409	2.20	"

Total, 120,246 hectares, fetching $149,000 or 3,000 m/n per league.

All the lots comprising the exact area of 3,750 hectares are situated inland; the others of irregular area have river frontage. It was thought that lot 24, comprising the small fort Alarcon would fetch the highest price, but it sold much beneath those through which the affluent Picun-Leufu flows. The Fort Alarcon lot fetched $2.35 m/n per hectare, say $5,875 m/n per league. Lots 27, 28, 31 and 32 were much contested, as they enjoy frontage on the river Limay and the affluent Picun-Leufu runs through them. These lots sold at the following rate per league:—

Lot.	Price per league.
27	$7,875 m/n.
28	7,750
31	9,125
32	5,500

The IXth Section, comprising inland lots only, was sold at the following prices:—

Lot.	Area.	Price per hectare.	Buyer.
1	3,750	$0.52	?
2	"	0.50	?
3	"	0.40	D'Abreu.
4	"	0.50	?
5	"	0.45	?
6	"	0.45	D'Abreu.
7	"	0.41	Dasso.
8	"	0.48	Danieri.
9	"	0.40	?
10	"	0.44	S. Alvarez.
11	"	0.41	S. Lopez.
12	"	0.40	Danieri.
13	"	0.40	Espineira.
14	"	0.41	S. Lopez.
15	"	0.38	F. Moreno.
16	"	0.38	Espineira.
17	"	0.36	M. Giral.
18	"	0.41	"
19	"	0.40	D. Sanchez.
20	"	0.36	Dasso
21	"	0.36	Lafontaine.
22	"	0.41	D. Sanchez.
23	"	0.40	Gilet.
24	"	0.37	Lafentaine.
25	"	0.37	"
26	"	0.43	Gilet.
27	"	0.43	Lebrero.
28	"	0.40	Lafentaine.
29	"	0.45	De La Torre.
30	"	0.55	"
31	"	0.70	"
32	"	0.52	"

Total, 120,000 hectares, at an average price of 0.42 per hectare, say $1,257 m/n. per league.

After the sale of the above two sections the auctioneer proceeded to the auction of several lots in the 1st Section, the buyers of which had failed to deposit the amount stipulated by the Land Law, in the National Bank. These lots were sold as follows:—

Lot.	Area	Price per hectare.	Buyer.
7	3750	0.51	Binetti.
8	3750	0.68	P. Palao.
10	5094	1.00	L. Fernandez
11	3750	0.57	Apestegui.
13	4954	0.90	L. Fernandez
14	4000	0.90	Sanchez.
15	3750	0.60	Mendibure.
16	3750	0.71	Echeverri.
17	3573	0.95	"
18	3308	0.90	S. Maxy.
19	3750	0.55	Dasso.
20	3750	0.56	"
21	3094	0.96	"
22	2900	1.10	E. Larco.
34	5328	0.80	D. Sanchez.

It will be remarked that the prices paid for the lots of the 1st Section were not as high as those fetched at the previous sale of that section. The auction to-day lasted about three hours, and bidders were standing in the "patio" all the time. In view of the brilliant results obtained, the auctioneer or the Government should provide bidders with chairs. If Bullrich had these land auctions in hands he would certainly provide luncheon also. On the 20th the last two sections of Limay lands will be sold, comprising the Xth and XIth Sections. In the latter section there are some excellent lands. All the lots to the North have frontage on the Covunco, affluent of the Nanquen, and some of them are in an exceptionally favorable position as, besides having front on the Covunco, they are crossed by the Cañada Grande. The Cañada Grande runs also through nearly all the Southern lots of the section. At the next auction some lots of the IIIrd and IVth Sections, the buyers of which have not complied with the stipulations of the law, will be resold.

The gold market ruled active during afternoon hours. About two hundred thousand dollars changed hands for cash and for Saturday at 36½ and 37. Operations for the end of the month were calculated at 250,000 from 36½ to 36.80. Four hundred thousand dollars were sold for the end of August at 35 and 35. The market closed at 37, sellers for the end of the month.

Mr Rom, the well-known landbroker, has sold 17 Rio Negro land bonds at 3,000 $m/n each.

There were parties at the Limay land auction to-day who had orders to buy fifty leagues of land 200/o to 300/o above the Government valution of $608 per league. They must have been rather astonished when they saw the good lands on the river selling at 9,325$ per league. These figures will open the eyes of landmen. If lands on the Limay fetch 9,000$, the beautiful camps of the Manzanas, near Nahuel Huapi, will sell at 20,000$ per league.

At the Plaza Once the following business reported:—

121 waggons with produce arrived.
The arrivals were:—
898 doz. sheepskins
1,850 doz. corderitos
50 doz. deerskins
630 cow hides
53 potro hides
28 bordalesas tallow
200 @ hair
195 bags flour
1,685 bags wheat
1,934 bags maize
350 bags bran
224 bags colza
232 bags turnip
153 bags linseed
725 bales hay
24,000 bricks
and other produce.
Cow hides rising.
In other produce the market continues unaltered.
The sales were—
Wool—
No sales.
Cow Hides—
600 camp at 193
Sheepskins—
Per doz. at 22-20, 12, 11 rls. lb
Matadero, 22
Total, 1,120 doz.
Corderitos, 1,400 doz. at $18, 17
Horse Hides—15 at 60
Hair—210 @ at 156
Deerskins—50 doz. at 60
Tallow—30 bordalesas, 46
Wheat—Per fan., candeal, 110, 98
Wheat—Per fan., Costa, 128
Wheat—Per fan. French at 136
Wheat—Per fan. South, 128
Total, 1,240 fanegas.
Maize—Per fan. morocho in grain at 56, 50, 48 and 40
Total, 1,240 fanegas.
Turnip—2,000 @ at 12
Hay—160 bales at 18, 16, 12 m/n per ton.

At the South Market the following business done:—

Cow hides, and potro hides continue firm. Sheepskins, hair, tallow, maize and corderitos flat. Other produce without variation.

The sales were:—
Cow Hides—
310 camp at 205, 200, 195
Sheepskins—
Per doz. sup. at 25½-23, 17-15, 12 rls.
Epidemic, 6
Total, 480 doz.
Corderitos, 780 doz., $20, 19, 16
Horse Hides—28 at 65, 64
Hair—30 @ at 174
Cow Hair—700 @ washed at 120

We take the following from the London *Financial News* of the 17th ult.:—

"In Lombard-street yesterday there was no improvement as regards business, but the discount houses evinced more disposition to compete for bills, owing to the influx of a further large sum of gold to the Bank. Two and three months' paper changed hands at ¾ to ⅞ per cent, but exceptional transactions took place in fine parcels of six months' bank acceptances at 1¼ o/o. Day-to-day money was readily obtained at ½ to ½ o/o, the supply being so plentiful.

"The bullion operations at the Bank comprise the receipt of £114,000, chiefly from Australia, and the withdrawal of £40,000 in German coin.

"Prices in the silver market were unvaried at 49 3/16d per ounce for bars, and 48 3/16d for Mexican dollars.

"The Stock markets yesterday were not without features of interest, the movements in prices being in some instances rather important, yet general business was almost at a standstill, operators holding back from new engagements pending the solution of the Ministerial Crisis, and the feeling of uncertainty was increased by reported difficulties in connection with the formation of a new Ministry. The Funds, after giving way 1/16 to ⅛ per cent., left off at a small improvement. Foreign Government Securities were dull in the early dealings, but later on, improved in tone and closed tolerably strong. Egyptian bonds, after giving way ¼ to ⅜, left off unchanged. Italian was bid for and rose ½. An advance of ⅜ to 1 also occurred in Russian Bonds, and ¼ to ½ in French Rentes, Mexican, Turkish Small Bonds, and several others, but Spanish was dull and fell 3/16 on the reported spread of the cholera.

"Foreign Railways were good in tone, and Brazilian Imperial Central Bahia Debentures rose 1. Buenos Ayres Great Southern Ordinary ½, Buenos Ayres and Rosario Ordinary 2, Central Uruguay and Mexican Ordinary ¼."

The following commercial telegram has been received:—

"Havre, July 15th

"During the fortnight, small wool operations have been effected at easy prices.

"Wool—

"Wool from B. Ayres for Havre, 33 o/o yield, f.1.37 per kilo.

"Stock on hand, 8,500-9,000 bales of River Plate wool.

"Beef Tallow—

"R. Plate at fs.37 to 38 per 50 kilos.

"Hides—

"Dry mat. ox hides, 14-15 kilos, fs.127-130 per 50 kilos.

"Salted saladero ox hides, Montevideo, 28 to 29 kilos, fs.73-73 per 50 kilos, despatched.

"Salted potro hides, B. Ayres, fs.51-54 per 50 kilos.

"Transactions in salted cow River Plate hides are done at current prices.

"Stock, 62-64,000 hides of all R. Plate kinds.

"Sugar has not been exported for Buenos Ayres, during the fortnight."

The following sales of real estate were registered yesterday:—

Calle Santa Fé, between Malavia and Acevedo, 17x71 mts., 5,000 m/n.

Calle Rioja, between Victoria and Alsina, 8x43 mts., 2,480 m/n.

Calle Correintes No. 1065, 11x40 mts., 5,000 nacionales.

Calle Azcuenaga no No., 8x30 mts., 1,446 nacionales.

Calle Chavango, between Rodriguez Peña and Callao, 13x25 mts., 4,333 m/n.

Calle Santiago del Estero No. 122, 6x22 mts, 8,500 m/n.

Two leagues of National land, lot 23, fraction D, IInd Section, 26,000 m/n.

Calle Venezuela, between Matheu and Alberti, 8x31 mts., 1,200 m/n.

Calle Comercio, between Lorea and 24 de Noviembre, 8x40 mts., 324 m/n.

Calle Moreno No. 371, 9x51 mts., 30,000 m/n

Calle Coronel Suarez and Palo, 17x25 mts., 2,000 m/n.

Calle Entre Rios No. 284, 8x28 mts., 2,894 nacionales.

Avenida Santa Lucia and Coronel Suarez, 37x15 mts., 6,200 m/n.

Calle Larrea No. 360, 8x38 mts., 1,009 m/n.

Calle Cochabamba No. 511, 13x67 mts., for 18,000 m/n.

Calle Pavon, between Sarandi and Rincon, 8x43 mts., 267 m/n.

The fiens in the R. Plate and Rio Grande up to July 15th, 1885, as compared with previous years, is as follows:—

	1885	1884
Buenos Aires	246,600	88,700
Rivers	754,600	736,100
Montevideo	256,500	341,500
Rio Grande	385,000	346,000
Total	1,642,700	1,511,300

	1883	1882
Buenos Aires	154,300	187,500
Rivers	644,500	768,600
Montevideo	258,200	210,800
Rio Grande	312,000	330,000
Total	1,369,000	1,502,000

The following figures of export of the principal staple of the country will be found interesting:—

Export of wool from 1st October to 15th July:—

	1884 Bales.	1885 Bales.
France	151,202	158,331
Belgium	85,638	75,705
England	1,773	10,057
Italy	4,701	3,977
Germany	42,649	56,529
U. States	2,025	231
Portugal	220	64
Brazil	1	1
Spain	..	215
	287,109	305,200

The following is a summary of the saladero business for the fortnight:—

Dry Cow Hides—
Sales, 10,500 hides.
Mataderos at $150-210
Good campo, 175-210
Regular, 160-190 per pesada, according to class, with ½ lb tara.
Becerros, 140
Nonatos, 90
For North America, sales 10,000 hides.
From Entre Rios at 47 rls. gold.
From Corrientes, 44 rls. gold.
Classified hides of this Province of 23 to 24 lb at 48 rls. gold.
For the North of the Continent, sales 6,500 hides.
Matadero novillo, 31-32 lb, at 51 rls. gold.
Matadero cow, 23 lb, 40 rls. gold.
For France, Spain and Italy, sales 12,500 hides.

SCHENK'S
Mandrake Pills
Are the best possible cure for liver troubles.
Try them
They are a gentle purgative, causing neither pain nor irritation.
Try them
as a remedy for billious diseases, they have no rival in the world of medicine.
Try them
A few doses will drive impurities out of the system and may prevent serious illness; therefore it is the part of prudence to try them.

Holman Liver Pad
Mr J A Bennet
195 Florida, Buenos Aires
Dear Sir
A Pad I purchased from your Agent here, Don Manuel Ruibal, produced most satisfactory results. It cured me of a Stomach and Liver complaint that for 10 years had prevented me from attending to business.
You are at liberty to publish this.
Tandil, 26th May

AUCTION
BY
A. Bullrich y Cia.
ON JULY 31st
OF
CAMPS
In Bahia Blanca
On the Sauce Grande.
These camps, which will be sold on the 31st, comprise 7½ leagues, one and a half being on the Arroyo Sauce Grande. They were settled on in the year 1872 by Don Jose Maria Rivarola & Co., and up to the present day there are flocks on them boasting the same refinement as those belonging to Don Tomas Newton. The first settlers were Englishmen in 1860, and these never settled on same camp, but during the terrific invasion most of them perished. The 'poblaciones' are very good, and the land containes more than 15,000 trees. The camps have a splendid future, and owing to their proximity to the port will very soon be worth 60,000 dollars the league. The large saladero is finished and will be worked by a company next year. The conditions of payment are very advantageous.

A Splendid Opportunity
For any person wishing to build a 'casaquinta,' there is to be sold a large plot of ground, in Calle Jujuy between Venezuela and Mejico, comprising 34 yards front by 50 deep, a wall surrounding the whole plot. The property will be sold cheap, if the purchaser buys with the object of building a dwelling house, as the owner has reserved for himself a piece of land alongside to build on. Good neighbours being his principal object. Calle Jujuy is paved: there are aguas corriente on the premises, gas pipes in front. There are also some splendid fruit trees in the quinta, and the locality is pure and healthy. For particulars
